## Project

### MyPortfolio Website

This is a website which is created using Html Css and Javascript .

### Password-Generator

A password generator is a tool that automatically generates a password based on guidelines that you set to create strong and unpredictable passwords for each of your accounts.

I developed this only with html css JavaScript.

### Scientific-Calculator

A scientific calculator is a calculator designed to help you calculate science engineering and mathematics problems. It has special buttons for parentheses trigonometric functions exponents. This is created using html css Javascript only.

## Achievements

I have done a lots of project and learned lots of skills from these project.

Education I have cleared JAWAHAR NAVODAYA VIDYALAYA Entrance examination and i have done my schooling there.
